. 98% of the time, the correct answer is the middle one. It’s no different with bikes. The middle one is usually easier to ride than the first or the last. But there are times when the middle one is the hardest to ride. Your ability to maintain balance when you’re hammering along at full speed gets tested a lot when you’re sailing down an incline. This is why most bike & riders wear helmets. Kitab Ilmu Gaib Pdf 13. 3585374d24. Mausu ah al Hadits an Nabawi asy Syarif 2.chm .
