The new in-game engine creates atmospheres as well as more realistic gameplay that take into account the football pitch – which is not only the largest surface in the world, but can vary up to 50% in size each week. “Our focus was on what the player experiences on a football pitch,” said Albert Noazar, FIFA Lead Designer at EA Canada. “The most challenging thing was to make the teams and environments feel like they were changing all the time. Every football pitch has a different surface. As the seasons progress, the grass will get longer and shorter. Snow will appear, and heavy rainstorms will be on the horizon.” Co-op mode can be enjoyed with one friend on the couch or with four players on four different monitors. Up to eight total players can participate in the same game with Real Player Network. The game also features single-player story modes featuring six on-pitch goals with six different opponents. FIFA 22 is now available worldwide for PlayStation 4, Xbox One, Nintendo Switch, PlayStation 3, Xbox 360 and PC. FIFA ULTIMATE TEAM RIVALS It’s back to the future with an all-new FIFA Ultimate Team. Make your Ultimate Squad by combining items from the three tranches of FIFA’s biggest clubs, PS4 teams and the Diverse Fifa Ultimate Team of fan-favourite ballers. Fans will be excited to see a brand new era of the All-Time FUT Dream Team and 12 Top Teams, adding to the 9 confirmed from the Player Series and the 3 promised from the Diverse team. New Ultimate Leagues bring FUT to life with new features. Choose your favourite team and put together the roster of the dream team on a 11-a-side Ultimate Football mode. Eliminate your enemies by playing 1v1, 2v2 or 3v3 matches in a classic FUT Man Game. **What's new in Fifa 22:**

- New camera handling has made FIFA 20 feel more responsive, and it even keeps a player's hand on the controller for actions such as flicks and headers. But the problem is persistent: if there's no pressing need to drive, the AI player will simply rotate the camera to the left of the player's feet.
- FIFA 22 has HD graphics and Frostbite for a deeper game, with full-body collisions, more confident handling of ball physics, and a host of new animations and on-pitch assets.
- Your stat tracking is more powerful than ever. FIFA Ultimate Team features more construction sets, more ways to personalize objects and more ways to hoard stats.
- Pick your transfers, then buy your kits. FIFA Ultimate Team offers the best authentic football apparel a player could want.
- Pro Clubs and tournaments now offer much higher rewards and more ways to compete.
- The Evo Garage lets you earn and collect more and more items.
- Individualised Pro Clubs: Design your club in the Pro Clubs app. Choose from over 2000 players, and you'll jump in with your friends.
- Champion Mode and Exhibition matches have been updated to offer the best experience possible.
- The return of the Variation Screen. Selecting a creation creates a new variation which borrows a player's physical profile and skills and can be further tweaked.
- Ultimate Team Cards: As in FIFA 20, Ultimate Team Cards let you combine items from the in-game store with stadium upgrades to improve your on-pitch experience.
- MyClub brings your Stadium, Training Mode and Matchday environments into one interactive environment. Create and update stadiums, personalise badges and join friends to take on Rivals at your favorite stadium.
- The best playing surfaces, kits, boots, gi and more.
