Both new features, and those that have been introduced in FIFA 21 are already available to play in the game and will continue to improve with each new iteration. FIFA on: FIFA 19 - FIFA 19 is the best football game of the year. We are living in a golden age of football: incredible football matches, incredible players and incredible communities. FIFA 19 is the best football game of the year, but it is not the only one. We want to build the best football game in the world and it starts with every new iteration of FIFA that becomes better than the last. After one year of iterative development, hundreds of new features and improvements from FIFA 19 and including the feedback from our community, we are ready for the next step: "FIFA on". With "FIFA on", we reinvent the FIFA experience. FIFA on is the future of FIFA. Both new features, and those that have been introduced in FIFA 21 are already available to play in the game and will continue to improve with each new iteration. Our first feature for "FIFA on" is Football Creator: a unique tool to design your own football stadiums, teams and training methods. You can design your club, your players and your stadium to become the best in the world. Create your own dream team and test your new stadiums with a match editor: train your players with your own best tactics and make changes to create game-winning football. How do you go from the game to the experience? We believe that "FIFA on" needs to take things to the next level: We want to reimagine every aspect of the FIFA experience, from gameplay to the visual design. It needs to be more than just football. It needs to be enjoyable, immersive and reflect what we can be today. That's why we've introduced "FIFA on" - a new visual style which makes full use of our new technology. "FIFA on" is a new real-time lighting engine for stadiums and players. This new engine simulates the atmosphere and light conditions you'd find on a match day to create a realistic and complete experience. Players are going to be even more reactive with FIFA 19's new "no-hide" tackle system. No longer will your goalie be able to clear a ball without you seeing it.

Fifa 22 Features Key:

- Introducing "HyperMotion Technology" - a new game engine designed to take the authenticity and intensity of playing football to the next level. See what makes football the greatest sport on Earth come to life with enhanced, realistic and diverse crowds, players and environments, and dynamic gameplay.
- The Dream League Championship - which includes 20 new transferable divisions and a completely re-designed divisional structure - giving players a chance to put their trade on sale and even try out new gaming strategies in a sandbox environment.
- Career Mode - the most immersive single player experience to date. Based on 22 real-life players on the pitch in motion capture suits, the depth and scale of player and team movement is now even further developed for a totally unprecedented, more immersive and rewarding game experience.
- Team Talk - gives players the ability to direct a team with authentic player on-ball conversations, expert advice, and instant reactions from fellow teammates.
- Create, coach and play together with your mates in this most social of games: Invite up to a friend to play a FREE FIFA 22 Games Pass - a standalone Football Companion app. Limitless online multiplayer gameplay through a permanent connection to PlayStation Network.
